## SUBJECT INDEX

## A

- Abdomen
  - duodenal trauma, battered children, 342
  - infection, piperacillin/tazobactam therapy, 598
  - intra-abdominal adhesions, 786
  - intra-abdominal isolates, susceptibility at operation, 791
  - irrigation, experimentally induced microbial peritonitis, 297
  - lower right quadrant mass, hepatic adenoma presenting as, 229
  - major surgery, AIDS- and HIV-infected patients, 754
  - operation, after percutaneous catheter drainage of pyogenic liver abscess, 658
  - penetrating trauma, individualized antibiotic therapy, 34
  - pseudo-surgical, peritonitis with CAPD, 448
  - shotgun wounds, 129
  - trauma, negative celiotomy, 365
- Abdominal aorta
  - non-aneurysmal atherosclerotic, spontaneous rupture, 451
  - selective monitoring in surgery, 559
  - surgery, small bowel obstruction after, 846
- Abdominoperineal resection, rectal adenocarcinoma, morbidity, 400
- Abscess
  - see also specific type
  - pyogenic hepatic, open drainage of, 219
- Absorbable sutures, sternotomy closure with, 596
- Acquired immunodeficiency syndrome
  - see also Human immunodeficiency virus
  - cytomegaloviral acalculous cholecystitis in, 679
  - major abdominal surgery in, 754
  - pneumothorax in, 200
- Adenocarcinoma
  - cardia, prognostic differences, 423
  - gallbladder, anomalous pancreaticobiliary ductal junction and, 430
  - pancreatic, preoperative chemoradiotherapy for, 772
  - rectal, abdominoperineal resection for, morbidity, 400
- Adenoma, parathyroid, asymptomatic and normocalcemic, 232
- Adhesions
  - intestinal, acute obstruction secondary to, 125
  - intra-abdominal, inhibition of, 786
- Adrenocorticotrophic hormone, bronchial carcinoid secretion of, Cushing's syndrome secondary to, 438
- Albumin, replacement, postoperative ileus, 758
- Allopurinol, survival of hemorrhagic shock and, 797
- Amputation, thru-knee, 619
- Anal fissure, chronic, clinical presentation of, 666
- Anastomoses
  - bifurcations and, laryngeal nerve, 188
  - colon, biofragmentable anastomotic ring for, 642
  - false aneurysm, iliac artery, 713
  - microvascular, laser-assisted, 211
  - single layer polypropylene, compared with double layer and stapled, colon resection, 168
  - small intestinal, sutured and stapled, 645
- Anesthetics, impact on sickle cell disease patients, 261
- Aneurysm, formation, laser-assisted microvascular anastomoses, 211
- Angiodysplasia, gastrointestinal bleeding caused by, 636
- Anomalous pancreaticobiliary ductal junction, adenocarcinoma of the gallbladder with, 430
- Antibiotics, individualized therapy, penetrating abdominal trauma, 34
- Aorta, pseudoaneurysms, cardiac surgery or chest trauma, 818
- Appendectomy, laparoscopic, acute appendicitis, benefits of, 541
- Appendiceal stump, difficult, management of, 624
- Appendicitis
  - acute, laparoscopic appendectomy, 541
  - perforated, clindamycin admixed with gentamicin, 248
- Arteriportal fistula, hepatic, 722

## B

- Balloon pump
  - intra-aortic
    - iatrogenic vascular trauma with, 813
    - vascular complications, 564
- Bifurcations, anastomoses and, laryngeal nerve, 188
- Bile acid, gastric mucosal injury induced by, topical isoproterenol effects, 479
- Bile duct
  - common
    - injuries, in laparoscopic cholecystectomy, 533
    - stones, in laparoscopic cholecystectomy, 525
  - hepatic, transection, during laparoscopic cholecystectomy, 664
- Biliary strictures, benign, results of Heineke-Mikulicz type choledochoplasty, 629
- Biopsy
  - fine needle aspiration, non-diagnostic, nodular thyroid disease, 415
  - nonpalpable breast lesions, 490
- Blastoma, pulmonary, children, 192
- Bowel
  - obstruction
    - after abdominal aortic surgery, 846
    - postoperative, after laparoscopy, 656
    - viability, acute mesenteric ischemia, 309
- Bradycardia, after carotid endarterectomy, 578
- Brain, fatal gunshot wounds, organ donation with, 764
- Breast
  - cancer
    - bilateral, 733
    - residual, distance from primary tumor, 435
    - indeterminate lesions, mammography in, 4
    - infiltrating lobular carcinoma, 405
    - intraductal cancer, noncomedo type, treatment, 106
    - mass, mammographic, medical legal implications, 99
    - nonpalpable lesions, biopsy for, 490
- Burns, scald, abusive, infants and children, 329, 379
- Buttock
  - burn wounds, exposure to stool, scald-abused infants and children, 379
  - gunshot wounds, sigmoidoscopy in, 350

## C

- CAPD, see Dialysis, continuous ambulatory peritoneal
- Cardia, adenocarcinoma arising from, 423
- Carotid endarterectomy, bradycardia after, 578
- Catheter
  - central venous
    - delayed pneumothorax after, 587
    - selective monitoring in abdominal aortic surgery, 559
  - dual-lumen silicone, long-term hemodialysis, 569
  - Hickman and Port-A-Cath, proper positioning technique, 453
  - indwelling venous, avoiding complications, 555
  - percutaneous drainage, pyogenic liver abscess, abdominal operations after, 658
- Catheterization, femoral arterial, retroperitoneal hematoma after, 94
- Celiac nerves, afferent and efferent, acute gastric lesions and (rat), 500
- Celiotomy, negative, 365
- Cesarean section, Pfannenstiel syndrome and, 459
- Chemoradiotherapy, preoperative, pancreatic adenocarcinoma, 772
- Child abuse
  - duodenal trauma, avulsion and transection, 342
  - scald burns, infants and children, 329, 379
- Cholangiography, balloon, laparoscopic, 290
- Cholangiopancreatography, endoscopic retrograde, 78
- role in laparoscopic cholecystectomy, 285

## Cholecystectomy

- laparoscopic, 235
    - aided with nasal speculum, 712
    - bile duct injuries in, 533
    - common bile duct stones in, 525
    - critically ill cardiac patients, 783
    - endoscopic retrograde cholangiopancreatography in, 285
    - hepatic bile duct transection during, 664
    - two-handed technique for, 639
  - laparoscopy versus, 23
  - symptom relief with, kinevac-assisted cholecystography as predictor of, 273
  - topical epinephrine in, 281
- Cholecystic blood supply, anatomic variance in, 278
- Cholecystitis
- acute acalculous, after open heart surgery, 74
  - cytomegaloviral acalculous, AIDS patients, 679
- Choledocholithiasis, common bile duct exploration, versus sphincterotomy, 78
- Choledochoplasty, Heineke-Mikulicz type, results in benign biliary strictures, 629
- Cholecystography, kinevac-assisted, predictor in gallbladder disease, 273
- Clindamycin, admixed with gentamicin, perforated appendicitis, 248
- Cocaine, platelet-activating factor and, vascular effects, swine model, 50
- Colectomy, open versus laparoscopic, 549
- Colon
- anastomosis, biofragmentable anastomotic ring for, 642
  - endoscopic tattooing, 205
  - injuries, definitive treatment, 43
  - obstruction, hepatic torsion and dislocation with, 455
  - resection, comparison of anastomoses in, 168
  - sigmoid, injury from seat belt trauma, 355
- Color flow Doppler examination, penetrating extremity arterial trauma, 375
- Common bile duct exploration, versus sphincterotomy, management of choledocholithiasis, 78
- Computed tomography
- abdominal, surgical intensive care unit, 610
  - spleen and its vasculature, pancreatitis, 155
- Cushing's syndrome, bronchial carcinoid secretion of ACTH and, 438
- Cystography, blunt trauma, 335
- Cytomegalovirus, acalculous cholecystitis, AIDS patients, 679

## D

- Diabetes, revascularized limbs, 746
  - Dialysis, continuous ambulatory peritoneal, peritonitis associated with, 448
  - Diaphragm, congenital hernia, delayed repair of, 90
  - Diverticulectomy, staged Zenker's, cervical esophagostomy with, massive diverticulum, 842
  - Diverticulum
    - epiphrenic esophageal, management, 40
    - massive, staged Zenker's diverticulectomy with cervical esophagostomy, 842  - Drunk driving, prosecution for, injury and hospitalization effects on, 484
  - Ductal carcinoma *in situ*, cutaneous end of surgical drainage, after total mastectomy, 210
  - Duodenum
    - ulcer
      - perforated, complications in, 312
      - perforated, prognostic factors, 319
- Dysphagia lusoria, aberrant right subclavian artery, 582

## E

- Ectopic tissue, nonmalignant, thyroid, 133
- Elective procedures

  - colon resection, anastomoses in, 168
  - peptic ulcer disease, 20

- Endoscopy

  - acute gastric volvulus, laparoscopic reduction of, 325
  - laparoscopic herniorrhaphy, extraperitoneal, 707
  - long intestinal tube placement, 626
  - resection, primary rectal teratoma, 270
  - retrograde cholangiopancreatography, 78
  - role in laparoscopic cholecystectomy, 285
  - tattooing, colon, 205
  - thoracic surgery, 615

- Endotoxemia, red cell membrane changes and, leukocyte role in, 9
- Epinephrine, topical, cholecystectomy, 281
- Esophagogastronomy, transthoracic, reflux subsequent to, 137
- Esophagostomy, cervical, staged Zenker's diverticulectomy with, massive diverticulum, 842
- Esophagus

  - epiphrenic diverticula, management, 40
  - transection, Sugiura-Futagawa procedure, 461

- Extremities

  - penetrating arterial, color flow Doppler examination of, 375
  - shotgun injury, 359

## F

- Fasciotomy, four-compartment, 574
- Femoral artery, catheterization, retroperitoneal hematoma after, 94
- Fibrin glue, intra-abdominal adhesion inhibition, 786
- Fibrous cyst, formation, after Marlex Mesh ventral herniorrhaphy, 716
- Foregut tumors, liver transplantation, radical resection combined with, 806
- Fournier's gangrene, etiology and clinical importance, 149

## G

- Gallbladder

  - adenocarcinoma, anomalous pancreaticobiliary ductal junction and, 430
  - chronic acalculous disease, kinevac-assisted cholecystography, 273
  - laparoscopy versus open cholecystectomy, safety, efficacy, cost, and morbidity, 23

- Gangrene, Fournier's, etiology and clinical importance, 149
- Gang violence, medical and economic consequences, 831
- Gastric cancer

  - survival factors, 855
  - tumor biology of, 850

- Gastric lesions, acute, celiac nerve effects (rat), 500
- Gastric mucosa, bile acid-induced injury, topical isoproterenol effects, 479
- Gastric volvulus, acute, laparoscopic reduction of, 325
- Gastroesophageal reflux, postresection, control of, 137
- Gastrointestinal bleeding

  - angiodysplasia and, 636
  - massive lower, 676

- Gastrointestinal stapling, neovascularization of, 645
- Gastrointestinal tract, schwannoma in, 290
- Gastrotomy, Stamm, 674
- Gaucher's disease, subtotal splenectomy, 860
- Gentamicin, admixed with clindamycin, perforated appendicitis, 248
- Greater omentum, primary leiomyosarcoma of, 160

## H

- Heart

  - critically ill patients, laparoscopic cholecystectomy for, 783

- penetrating injury, mortality in, 338
- Heart surgery
  - chest trauma and, pseudoaneurysms of aorta after, 818
  - open, acute acalculous cholecystitis after, 74
- Hemodialysis
  - angiodyplasia in, GI bleeding from, 636
  - long-term, dual-lumen silicone catheters, 569
- Hemorrhagic shock
  - hypotonic versus isotonic resuscitation (pig), 495
  - survival, superoxide dismutase and allopurinol effects, 797
- Hemostasis, pharmacologic, in laparoscopy, 281
- Hepatic artery, replaced common, sparing of during pancreaticoduodenectomy, 719
- Hepato-renal disease, end-stage, combined liver/kidney transplant in, 606
- Hernia
  - diaphragmatic, congenital, delayed repair of, 90
  - inguinal
    - laparoscopic repair, 824
    - swine model, 13
  - obturator, 709
  - preperitoneal, laparoscopy, 85
- Herniorrhaphy

Musculocutaneous flaps, dissection of, seroma formation after, 213  
 Myocardial dysfunction  
   intra-aortic balloon pump in  
     iatrogenic vascular trauma with, 813  
     vascular complications, 564

## N

Nasal speculum, laparoscopic gallbladder delivery with, 712  
 Neck, penetrating injuries, 750  
 Neck exploration, bilateral, primary hyperparathyroidism, 115  
 Necrotizing fasciitis  
   implications to risk factors, 304  
   secondary to discoid lupus erythematosus, 164

## O

Organ donation, fatal gunshot wounds, 764  
 Oxygen, impaired utilization, decreased red cell deformity and, sepsis, 65

## P

Pancreas  
   adenocarcinoma, preoperative chemoradiotherapy for, 772  
   benign and malignant disease, radical resection for, 69  
   cystic neoplasms of, 740  
   penetrating trauma, peripheral fat necrosis after, 769  
   primary lymphoma, 513  
   pseudocyst, total parenteral nutrition role in, 736  
 Pancreaticoduodenectomy, sparing replaced common hepatic artery during, 719  
 Pancreatitis, spleen and vasculature in, CT findings, 155  
 Pancreatobiliary surgery, vascular injuries during, 692  
 Parathyroid  
   adenoma, asymptomatic and normocalcemic, 232  
   autografts, recurrent hyperparathyroidism due to, 178  
   lesions, hyperparathyroid patients, 509  
 Pediatrics  
   abusive scald burns, infants and children, 329, 379  
   atypical thyroglossal duct cyst, 223  
   duodenal trauma, battered children, 342  
   pulmonary blastoma, 192  
   renal trauma, surgical management, 388  
 Peliosis, spontaneous splenic rupture and, 197  
 Pelvic exenteration, failed rectal cancer surgery, 420  
 Pelvic fracture, pulmonary emboli risk in, 505  
 Peritonitis  
   associated with CAPD, 448  
   intra-abdominal isolates, susceptibility at operation, 791  
   microbial, experimentally induced, irrigation of abdominal cavity, 297  
 Pfannenstiel syndrome, 459  
 Piperacillin, tazobactam and, surgically treated intra-abdominal infection, 598  
 Platelet-activating factor, cocaine and, vascular effects, swine model, 50  
 Pneumothorax  
   AIDS patient, 200  
   delayed, after central venous access, 587  
 Polyp, inflammatory, colonic ischemia, 315  
 Presidential address, 1, 475  
 Pulmonary artery diastolic pressure minus pulmonary artery wedge pressure, critically ill surgical patients, 346  
 Pulmonary edema, after post-operative laryngospasm, 443  
 Pulmonary emboli, risk, pelvic fracture patients, 505  
 Pulmonary sequestration, 801

## R

Rectal cancer, failed surgery, pelvic exenteration, 420  
 Rectal prolapse, anterior resection in, 265

Rectal teratoma, primary, endoscopic resection of, 270  
 Red blood cells, deformity, impaired oxygen utilization and, sepsis, 65  
 Red cell membrane, endotoxin-induced alterations, leukocytes in, 9  
 Resuscitation, hypertonic versus isotonic, hemorrhagic shock (pig), 495  
 Retroperitoneal hematoma, after femoral arterial catheterization, 94  
 Revascularized limbs, diabetic, 746

## S

Saphenous vein, exposed *in situ*, regional coverage by muscle flaps, 465  
 Scar, lumpectomy, clinical evaluation, 55  
 Schwannoma, gastric, 290  
 Scintigraphy, thallium-technetium subtraction, localization of parathyroid lesions, hyperparathyroid patients, 509  
 Sepsis  
   infection and, intensive care unit, 60  
   red blood cell deformity, impaired oxygen utilization and, 65  
   red cell membrane changes and, leukocyte role in, 9  
 Seroma, formation, after dissection of musculocutaneous flaps, 213  
 Sickle cell disease, anesthetic agents and, 261  
 Sigmoidoscopy, gunshot wounds to buttock, 350  
 Sphincterotomy, versus common bile duct exploration, management of choledocholithiasis, 78  
 Spinal cord  
   injury, laparotomy in, cardiorespiratory effects, 689  
   trauma, missed injuries with, 371  
 Spleen  
   peliosis, spontaneous splenic rupture and, 197  
   preservation, after blunt trauma, 698  
   vasculature of, in pancreatitis, CT findings, 155  
 Splenectomy, subtotal, Gaucher's disease, 860  
 Splenorrhaphy, versus nonoperative management, after blunt trauma, 698  
 Stamm gastrostomy, review, 674  
 Sternotomy, partial media, closure with absorbable sutures, 596  
 Stomach, upper third, adenocarcinoma arising from, 423  
 Subclavian artery, right, aberrant, Kommerell's diverticulum with, 582  
 Sugiura-Futagawa procedure, esophageal transection in, 461  
 Superoxide dismutase, survival of hemorrhagic shock and, 797  
 Surgical services, university hospital, major hurricane impact on, 28

## T

Tazobactam, piperacillin and, surgically treated intra-abdominal infection, 598  
 Teratoma, rectal, endoscopic resection of, 270  
 Thoracic outlet, arterial injuries, 590  
 Thoracoscopic surgery, video-assisted, 615  
 Thoracotomy, emergency, lung resection and, after chest trauma, 834  
 Thyroglossal duct cyst, atypical, childhood, 223  
 Thyroid  
   cancer, total thyroidectomy for, 110  
   carcinoma, as cervical lymphadenopathy, 172  
   nodular disease, non-diagnostic fine needle aspiration, 415  
   nonmalignant ectopic tissue, 133  
   solitary cold nodule, atypical thyroglossal duct cyst, children, 223  
 Thyroidectomy, total, differentiated thyroid carcinoma, 110  
 Total parenteral nutrition  
   hepatic dysfunction and, 650  
   pancreatic pseudocyst and, 736  
 Transverse rectus abdominis musculocutaneous flap, immediate, bilateral reconstruction, after mastectomy, 519  
 Trauma  
   abdominal, penetrating, individualized antibiotic therapy, 34  
   admitted patients, seroprevalence of HIV, 384  
   arterial injuries, thoracic outlet, 590  
   blunt, cystography in, 335

blunt splenic, splenorrhaphy versus nonoperative management, 698  
cardiac injury, penetrating, mortality in, 338  
celiotomy, negative, 365  
chest  
    emergency thoracotomy with lung resection, 834  
    pseudoaneurysms of aorta after, 818  
colon injuries, definitive treatment, 43  
duodenal, battered children, 342  
gunshot wounds  
    buttock, sigmoidoscopy in, 350  
    cerebral, organ donation with, 764  
iatrogenic vascular, intra-aortic balloon pumping and, 806  
injury and hospitalization effects, prosecution of drunk drivers, 484  
nonpenetrating thoracic, interventricular septal defect from, 353  
penetrating extremity arterial, color flow Doppler examination of, 375  
penetrating neck injuries, 750  
penetrating pancreatic, peripheral fat necrosis after, 769  
renal, pediatric, surgical management, 388  
seat belt, sigmoid colon injury, 355  
shootings, gang-related, medical and economic consequences, 831  
shotgun wounds  
    abdomen, 129  
    extremity, improving outcome, 359  
spinal cord, missed injuries with, 371

vascular injuries, during pancreatobiliary surgery, 692  
Tumor biology, gastric cancer, 850

## U

Ulcer  
    duodenal  
        perforated, complications in, 312  
        perforated, prognostic factors, 319  
    gastric  
        bleeding or perforated, high-risk patient, 472  
        perforated, prognostic factors, 319  
        perforated, resection and simple closure, 669  
        peptic, elective procedures for, 20  
Ultrasound, preoperative, localization of parathyroid lesions, hyperparathyroid patients, 509

## V

Vascular anastomotic techniques, strength of, 470  
Vein bypass, *in situ*, regional coverage by muscle flaps, 465  
Venous access, long-term, complications, 555  
Venous insufficiency, four-compartment fasciotomy, 574  
Ventricular septal defect, nonpenetrating thoracic trauma, 353

## W

Wound infection, reduction of, high-risk patients, 838
